

REMARKS

Applicants gratefully acknowledge receipt of the Notice of Allowance dated October 30, 2009, in which claims 1-32, 34-76 and 78-91 of the present application were allowed.

This paper presents amendments under 37 C.F.R. §1.312 to the specification to replace references to applications by attorney docket number with references to those applications by serial number, in accordance with MPEP §608.01. No new matter is added by these amendments, and no amendments to the claims are presented.

MPEP §714.16 states that an Examiner “has authority to enter amendments submitted after Notice of Allowance of an application which embody merely the correction of formal matters in the specification or drawing . . . without forwarding to the supervisory patent examiner for approval.”

Because the amendments presented in this paper include only corrections of formal matters in the specification, Applicants respectfully request that these amendments be entered in accordance with 37 C.F.R. §1.312 under the Examiner’s authority as specified in MPEP §714.16.

Respectfully submitted,

David E. Shifren
